Aircraft

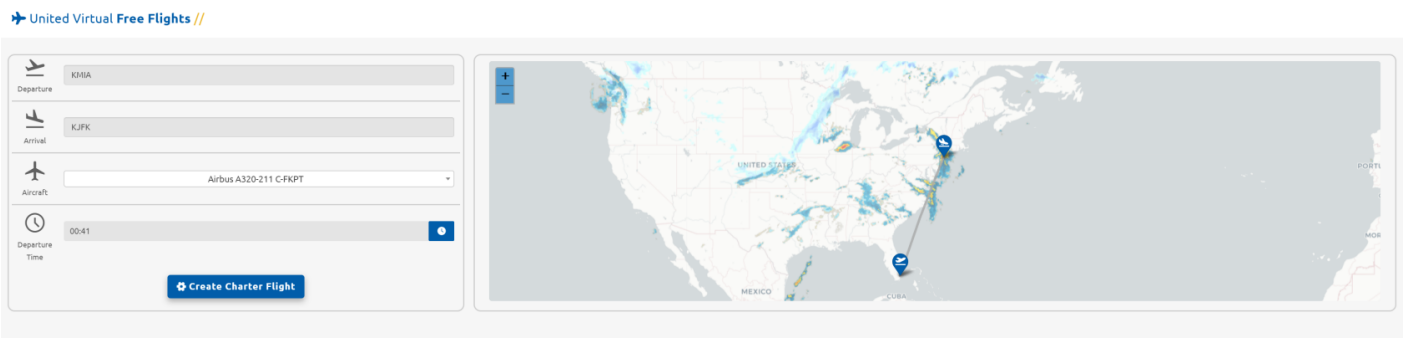

Navigating Your Fleet: Choosing the Perfect Aircraft

Embark on the crucial decision of selecting the ideal aircraft for your upcoming flight. Our extensive database of over 8,000 aircraft awaits your command. Here's how to make your choice:

- 1. Initiate Aircraft Selection:**
 - Begin typing the name of the desired aircraft into the dedicated field. Witness the dropdown menu unfolding gradually as our system meticulously presents the diverse array of options at your fingertips.
- 2. Exercise Patience:**
 - Given the vastness of our database, the dropdown may take a moment to comprehensively load. Demonstrate your aviator's composure and allow the system the time it needs to unveil the multitude of aircraft possibilities.

Elevate your flight experience by piloting the aircraft of your choosing, where every model stands ready to become an integral part of your aviation narrative.

Departure Time

Temporal Precision: Crafting Your Departure Time

Navigate through the temporal intricacies of your flight plan with finesse. Here's a step-by-step guide on setting your departure time:

1. Invoke the Time Selector:

- Click on the time icon, triggering the emergence of the time selector. This tool becomes your ally in orchestrating the exact moment your flight embarks on its journey.

2. Hourly and Minute Mastery:

- In the time selector, meticulously pick the hours and minutes that align with your envisioned departure time. Exercise precision in this temporal ballet to synchronize your flight with the broader aviation symphony.

3. Zulu Time Unveiled:

- Take note that departure times operate in Zulu time, offering a standardized temporal framework for aviation coordination, irrespective of your local time zone.

4. Finalize Your Flight Creation:

- Having curated your departure time with finesse, seal the deal by clicking the blue "Create Flight" button. This action seamlessly integrates your flight into your bids, paving the way for the subsequent generation of your flight plan on the Dispatch page.
