

Trip Generator

Access the Module

- Log in to your pilot dashboard.
- Navigate to the **Pilot Ops** section within the sidebar navigation, and select **Trip Generator**

Set Your Preferences

Trip Generator
Select your options below and hit Generate Flights to see your results. Results are based on actual schedules in our database.

Select Airlines:
-- Select Airline(s) --

Select Aircraft:
-- Select Aircraft(s) --

Departure Airport:
-- Select an Airport --

Minimum Flight Time (hours):
0

Maximum Flight Time (hours):
3

Maximum Flights:
4

Generate Flights

Use the provided filters to refine your flight search:

- Select one or more airlines.
- Choose your preferred aircraft types.
- Adjust the flight duration range using the sliders.
- Enter the starting departure airport.

Generate Your Schedule

- Click **Generate Schedule** to create a personalized round-trip schedule based on your preferences.
- The system will display all matching flights that form a round-trip route.

Review Your Flights

Search Parameters

Airline(s): UAL

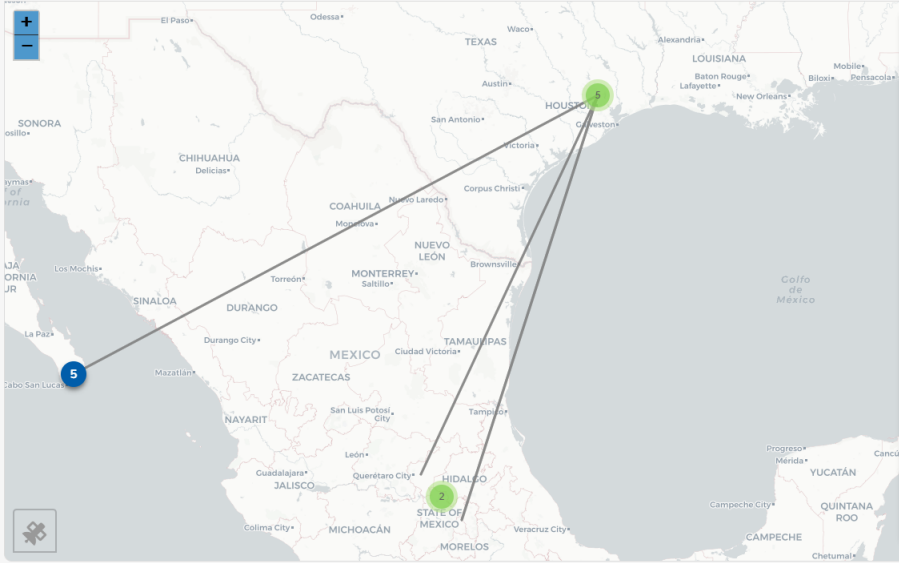

Aircraft: A320, A319

Departure Airport: KIAH

Min Flight Time: 0Hours

Max Flight Time: 3Hours

Max Flights: 6

#	Flight Number	Departure	Arrival	Aircraft	Flight Time
1	UAL2214	KIAH	MMQT	A319	2.06 hrs
2	UAL2079	MMQT	KIAH	A319	2.04 hrs
3	UAL1060	KIAH	MMMX	A319	2.2 hrs
4	UAL1085	MMMX	KIAH	A319	2.2 hrs
5	UAL473	KIAH	MMSD	A320	2.53 hrs
6	UAL1165	MMSD	KIAH	A320	2.33 hrs

Add All Flights To Bids

- Examine the generated flights in the table:
- Review flight details for accuracy.
- Modify the list as needed by adding or removing flights.

Visualize Your Route

View your flight path on the interactive map:

- Check the lines connecting all flights.
- Use numbered markers to identify each leg of the trip.

Finalize Your Schedule

When satisfied, add flights to your bids

- Use **Add All to Bids** to add the entire schedule.

Plan Ahead: Start with broad criteria, then narrow your options as needed.

Be Realistic: Search results are generated by the schedules in our system. Please use realistic search parameters. Trying to search for UAL flights using an A380, is not going to generate any results for you.

Leverage the Map: Use the map to confirm the sequence and coverage of your route.
